

FACE SHIELD

PRODUCT CODE: TEC-CAPVISOR \_1

# DISPOSABLE FACE SHIELD FOR BASEBALL CAPS

## FACE SHIELD FOR BASEBALL CAPS

Tecman's lightweight face shield designed for baseball caps provide protection for the face and eyes from splashing or spraying of infectious or hazardous substances. The universal visor slot fits perfectly over the curved visor on baseball caps and is held in place with a soft elasticated strap.

An area is available on the sides of the visor for customised branding and writing names.

The face shields are manufactured from optically clear polyester with an anti-fog coating for maximum visibility. The soft elasticated strap gently curves the clear face shield around the face to provide both maximum shielding and long-term comfort for the wearer. The product can be worn with or without additional eyewear or face protection, such as prescription or protective eyewear and face masks.

Our registered design face shield is manufactured using a patent-protected process.
